

FeMS Q3 2025

Empowerment Award

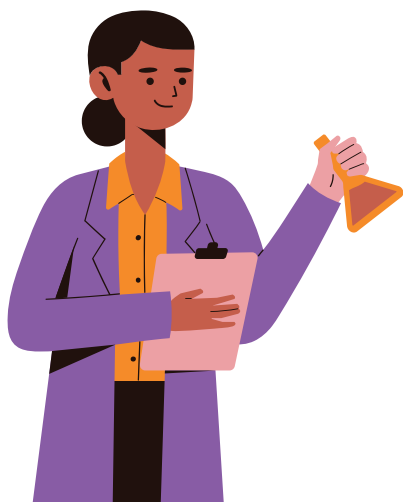

Opens on
May 12th

Awards of up to \$300 to
cover/offset work or study-
related costs in the mass
spectrometry field!

Application deadline

May 25th

[Apply here!](#)

UPCOMING EVENTS

**Bay Area Pop-up:
Connections +
Conversations**

Themes include:

- What's Next - Navigating careers, transitions, and ambition in science
- Round Table Discussions - Growth, Connection, and Community
- Facilitated by FeMS Out of the Shadows alums
- Limited to 40 places
- Registration Link: bit.ly/fems-md-ptc

Proud Sponsors:

MASS DYNAMICS

Register:

Thursday, May 29th
4PM - 7PM PT
Foundry & Lux, 151 Oyster Point Blvd
South San Francisco

CHECK OUT OUR EVENTS AT ASMS!

Save the date

**Networking Session:
Celebrating Women Mass
Spectrometrists**

**ASMS 73rd Conference
Mass spectrometry and Allied Topics**

Featuring keynote speaker Livia Eberlin

MONDAY, JUNE 02

12:00 PM TO 1:00 PM

**BALTIMORE CONVENTION
CENTER, CA, US
POSTER - EXHIBIT HALL**

**All registered attendees of the conference
are invited to this event !**

Save the date

**Career paths for Mass Spectrometrists
A speed networking workshop from
Career Development Interest Group**

**ASMS 73rd Conference
Mass spectrometry and Allied Topics**

MONDAY, JUNE 02

5:45 PM TO 7:00 PM

**BALTIMORE CONVENTION
CENTER, CA, US - ROOM
307-308**

**All registered attendees of the conference
are invited to this event !**

PAST EVENTS

CULTIVATING INCLUSIVITY & BUILDING A POSITIVE CULTURE WITHIN MASS SPECTROMETRY: A REPORT FROM THE EDI MEETING

On March 18th 2025, FeMS was proud to partner with the **British Mass Spectrometry Society (BMSS)** on an inspiring event focused on advancing inclusivity in mass spectrometry. This inaugural **Equality, Diversity and Inclusion (EDI)** meeting marked a shared commitment to fostering a more equitable community, offering space to discuss challenges, share experiences and explore practical steps toward lasting change.

With powerful personal stories and contributions from academia and industry, the event signaled a cultural shift in the field—one that values diversity as key to scientific progress.

Building on this momentum, we are already exploring future FeMS-BMSS collaborations to continue driving this important work forward. We are so grateful to our event sponsors; **AstraZeneca, Royal Society of Chemistry, SCIEX, Shimadzu Corporation, Thermo Fisher Scientific and Waters Corporation**—for their generous support in making this meaningful and thought-provoking day possible.

Continued support for initiatives like this is not just appreciated—it's essential. By championing and investing in inclusive events, we ensure that the progress made becomes a sustained movement, shaping a more equitable and innovative future for mass spectrometry.

PAST EVENTS

Networking event on 19 May for **E/MCRs at AUS-oMicS** organized by FeMS⁺ and generously sponsored by **Mass Dynamics** and **Evosep**.

This in-person event celebrated diversity and inclusion in mass spectrometry, an opportunity to connect with like-minded individuals while enjoying delicious grazing platters.
